

Join the Philadelphia Water Department for an information session regarding improvements and new construction taking place on the ground of the East Park Reservoir. PWD will be embarking on a multi-year project at this location which will include the construction of new water tanks, and some general facility upgrades and additional sight improvements.

We'd like to inform the neighbors about the work involved, and what they can expect for the duration of this project. Please attend this meeting for your opportunity to get information, and ask questions to PWD representatives who will be in attendance.

Meeting Date: Tuesday, February 4th 6:30 - 8:00^{PM}

Meeting Location: Cornerstone Baptist Church
2117 N 33rd Street | Philadelphia, 19121
