1101 Market Street  
Philadelphia, Pennsylvania 19107-2994

HOWARD NEUKRUG  
Commissioner

**WORK NO. S-50042-G**

05/30/2013

**WAKELING STREET FROM DITMAN STREET TO JACKSON STREET  
DITMAN STREET FROM MARGARET STREET TO WAKELING STREET  
WORTH STREET FROM HERBERT STREET TO WAKELING STREET**

Dear Water Customer and neighbor,

I am writing to alert you that the Water Department will be starting construction work in your neighborhood in the near future at the above location.

This project is part of the overall Green Infrastructure Initiative Implemented by City of Philadelphia to improve the subsurface drainage of your neighborhood. Green storm water infrastructure includes a range of soil-water-plant systems that intercept storm water, infiltrate a portion of it into the ground, evaporate a portion of it into the air, and in some cases release a portion of it slowly back into the sewer system.

The Water Department has hired a private contractor, A.P Construction, Inc. to complete the above project. The work is scheduled to start 06/03/2013.

We have scheduled a photographer from the City's Records Department to visit the job site to record all existing conditions prior to the start of construction. This will help to avoid potential disputes between the contractor and property owners and assure that all work sites are left in acceptable condition upon completion of the project.

Construction work, unavoidably, is never a clean or noiseless business. It can involve the use of large construction equipment to break out roads, excavate deep trenches and haul heavy materials to and from the site. It will be necessary to temporarily store construction materials in selected areas along the street until the new green infrastructures are installed. Throughout construction, normal day to day street use will be disrupted as temporary accommodations must be made for parking, vehicle and pedestrian traffic, trash pick-up and emergency access. Trench repaving and final clean-up will complete the work on your block. During normal working hours, between 7:00 AM and 3:30 PM, it may be necessary to close the street to through traffic. The contractor will also post "No-parking" signs on an as required basis as the work proceeds. Trash should be placed at the curb as regularly scheduled and the contractor will assist the Streets Department with pick up.

The Water Department has assigned an Inspector to the project that will be on-site every day. Should you experience any problems during the course of the work please ask to talk with the Inspector, Deborah Mullen (phone 215-380-2551), on the job site. The inspector will discuss the problem with the contractor and do whatever is possible to assist you. If you are unable to contact the Inspector at the job site or have any other questions concerning the work, please contact me at the number listed below between 8:30 AM

and 4:30 PM, Monday thru Friday. Should an emergency occur during non-working hours, please call the Water Department hot line at 685-6300, where someone will take your call at any time. Please keep these phone numbers handy in the event you find a need for our assistance, and thank you in advance for your patience and cooperation.

Very truly yours,  
Blair Alegant PE
