

YOU'RE INVITED!

Rain Check Contractor Info Session

Seeking contractors to install residential rain gardens, rain barrels, downspout planters and permeable pavers through Philadelphia Water's Rain Check program.

This session will provide details about Rain Check, the qualifications we're looking for, and how to apply. Installation contractors may include landscapers, hardscapers, general home contractors, and professionals from related fields. Applicants should have relevant experience, qualifications, references, licenses and insurances. Depending on participant demand, active contractors can expect to earn \$10,000-\$35,000 per year.
