

# Interested in hosting a Weatherization Workshop?

**About the workshops:** PGW provides self-help weatherization workshops for people in the community. The workshops are designed to educate the public on various steps they can take to lower their energy bills and make their homes a more comfortable, healthy environment. Workshops include free weatherization kits for all who participate in the workshop.

**What we ask from you:** We ask that you coordinate with us on a time/place to hold the workshop and that you reach out to invite folks from the community. The workshops are designed for groups of 20-50 people, and are presented in a classroom style setting. They tend to last about an hour depending on the presenter and the time constraints of the event.

**How to set up a workshop:** You can schedule a workshop by contacting Maile Munro at [mailem@ecasavesenergy.org](mailto:mailem@ecasavesenergy.org) or by phone (215) 609-1439. She will help you coordinate on a time and date of the event in order to avoid scheduling conflicts.

*If you are interested in setting up a workshop, please fill out the information below and send it in to Maile by mail, fax or email.*
